**The Archaeology of Power** John Steane 2001 A  
groundbreaking study detailing what archaeology  
can tell us about the middle-ages. The study of  
government in Britain and North-West Europe  
during the middle ages has traditionally been the  
monopoly of historians. In this remarkable book  
the author shows what archaeology can  
contribute to the overall picture of medieval  
society. In particular he looks at two areas: the

objects, such as costume, crowns, thrones and sceptres which were vital symbolic elements in complex liturgical and ideological systems and the buildings, palaces, castles, monasteries which were created by powerful elites and provided the space within which symbolic functions were played out.

**Arts & Humanities Citation Index 1987 A**

multidisciplinary index covering the journal literature of the arts and humanities. It fully covers 1,144 of the world's leading arts and humanities journals, and it indexes individually selected, relevant items from over 6,800 major science and

social science journals.

*Michigan Manual 1907*

**Water-resources Engineering David A. Chin 2006**

This in-depth review of water-resources engineering essentials focuses on both fundamentals and design applications. Emphasis on fundamentals encourages readers' understanding of basic equations in water-resources engineering and the background that is necessary to develop innovative solutions to complex problems. Comprehensive design applications illustrate the practical application of the basic equations of water-resources

engineering. Full coverage of hydraulics, hydrology, and water-resources planning and management is provided. Hydraulics is separated into closed-conduit flow and open-channel flow, and hydrology is separated into surface-water hydrology and ground-water hydrology. For professionals looking for a reference book on water-resources engineering.

**Electronics World + Wireless World** 1990

**Het Utopia experiment** Robert Ludlum 2013-10-03

Robert Ludlum & Kyle Mills, **Het Utopia experiment** Een revolutie op het gebied van

oorlogvoering, maar is het wel veilig? Dresner Industries presenteert een revolutionair nieuw product: de Merge. Een technologische uitbreiding van de menselijke waarneming die direct gekoppeld is aan de hersenen. Kolonel Jon Smith wordt gevraagd het militaire potentieel te bepalen van het apparaat en de bijbehorende implantaten. Hij ontdekt dat de Merge een nieuwe manier van oorlog voeren mogelijk maakt. Een uitvinding die niet in handen van Amerikas vijanden mag komen. Maar is de Merge wel zegen voor de mensheid als Dresner beweert? En wat is het verband met een bizarre slachting

in Afghanistan? Het is duidelijk dat Dresner iets verbergt, maar wat? Jon Smith en Randi Russell zijn vastbesloten om met gevaar voor eigen leven de waarheid te achterhalen die hun tegenstanders tot elke prijs geheim willen houden. Robert Ludlum brak op zijn veertigste door met De Scarlatti Erfenis en heeft inmiddels meer dan vijftientig wereldwijde bestsellers op zijn naam staan. Zijn serie rondom Jason Bourne is succesvol verfilmd met Matt Damon in de hoofdrol.

**Pipelines in the Constructed Environment**  
American Society of Civil Engineers. Pipeline  
Division. Conference 1998 New pipeline  
construction, the maintenance of existing  
pipelines, and the rehabilitation or replacement or  
deteriorating pipelines often takes place with  
many challenges and constraints imposed by  
developmental regulations. The 1998 Pipeline  
Division Conference provided a forum for those  
involved in the field to share ideas and learn  
more about the issues faced today. These 92  
peer-reviewed papers reflect the current methods

and technology in the field of pipeline  
construction. Proceedings of the 1998 Pipeline  
Division Conference, August '98, San Diego, CA.
