Selecting The Perfect Ice Cream Maker Michelle Spencer 2013-09-23 Whether you are using grandma's old hand-cranked ice cream maker, or one of the modern toss-ball types, there are some constants that are good to keep in mind while making ice cream at home. Crank freezers tend to have a larger 2-4 quart capacity than other ice cream makers, especially in the older models. More modern ice cream makers that do not require ice tend to be of 1-2 quart capacity. If you are making small batches with the ice-less type and want to make larger quantities, you might freeze the ice cream in separate smaller containers, or combine the batches in a larger container in your regular freezer. If you are making larger amounts for a gathering, make most of your ice cream in advance so as not to squander large blocks of time manning the ice cream maker while you have guests. Selecting The Perfect Ice Cream Maker by Michelle Spencer is perfect in helping you find the best Ice Cream Maker for making Ice Cream in the comfort of your home. Be sure to read the manufacturer's instructions with any ice cream maker, crank or otherwise. Unless otherwise instructed, always start your project by washing the lid, can, and dasher (scraper) with hot soapy water. Be sure to rinse everything well, and scald with boiling water. This will sterilize your equipment, preventing bacteria from getting to the milk or cream in your mix. Check your lid and make sure it fits well to prevent leaking. Find out more trade secrets on how to make the best homemade ice cream and how to select that great ice cream maker.

Driftwood Camp Ian Gill 2018-02-19 Driftwood Camp is an oilfield Camp located on the southern coast of Trinidad and so called because of the huge amounts of driftwood washed up on the beach mainly from the Orinoco River. The camp was set up to accommodate British nationals hired to exploit the oil resources at the behest of Winston Churchill to aid the war efforts for World War 2 1939-1945.The novel covers the period 1958 to 1964 when many colonies were moving to self government including Trinidad and where change was the order of the day. Dr Eric Williams had led the peoples National Movement to power in 1956 and ultimately to internal self government Independence; eventually Trinidad and Tobago became a Republic.The white British staff enjoy all the benefits of Camp life in strict contrast to the black villages who provide servants, maids, washers and yard boys for the Camp occupants. In their jobs the white "A" staff are highly trained, organised and competent but privately engage in sexual adventures that have serious repercussions.
