Nature and Literary Studies Peter Remien 2022-08-04 Nature and Literary Studies supplies a broad and accessible overview of one of the most important and contested keywords in modern literary studies. Drawing together the work of leading scholars of a variety of critical approaches, historical periods, and cultural traditions, the book examines nature's philosophical, theological, and scientific origins in literature, as well as how literary representations of this concept evolved in response to colonialism, industrialization, and new forms of scientific knowledge. Surveying nature's diverse applications in twenty-first-century literary studies and critical theory, the volume seeks to reconcile nature's ideological baggage with its fundamental role in fostering appreciation of nonhuman being and agency. Including chapters on wilderness, pastoral, gender studies, critical race theory, and digital literature, the book is a key resource for students and professors seeking to understand nature's role in the environmental humanities.

Annie wil haar dochters beschermen tegen alle nare dingen, maar ze weet niet dat met Elv, haar oudste, 'het ergste al was gebeurd' in de zomer dat zij elf was geworden. De zus van Freud Goce Smilevski 2012-02-23 Het is 1938. Nazi-Duitsland is Oostenrijk binnengevallen en heeft alle grenzen gesloten. Adolphina, Paulina, Marie en Rosa Freud hebben een voorgevoel van wat hen en Europa te wachten staat en hopen dat hun broer Sigmund visa kan regelen zodat zij Oostenrijk kunnen verlaten. Maar wanneer hij toestemming krijgt om zestien mensen mee te nemen naar Londen, zitten zij daar niet bij. Op het moment dat Sigmund naar Londen vertrekt, worden zijn zussen gedeporteerd naar het concentratiekamp Theresienstadt en daar later vermoord. In het kamp raakt Adolphina bevriend met de zus van Franz Kafka, Ottla. Zij lijdt aan geheugenverlies. Bij gebrek aan een eigen geheugen vraagt Ottla aan Adolphina om haar levensverhaal te vertellen. Dit verhaal voert terug naar het Wenen van eind negentiende en begin twintigste eeuw. Het geeft inzicht in de relaties binnen de familie Freud, met name de relatie tussen Sigmund en zijn ouders, die als basis voor zijn latere ideeën heeft gediend. Met De zus van Sigmund Freud weet Smilevski de lezer mee te voeren naar het rijke Wenen van eind negentiende eeuw. Hierbij legt hij nadruk op het huwelijk, de positie van vrouwen en de worsteling die de joodse gemeenschap toentertijd moest ondergaan om te overleven.

Inside Out 2008-01-01 The incursions of women into areas from which they had been traditionally excluded, together with the literary representations of their attempts to negotiate, subvert and appropriate these forbidden spaces, is the underlying theme that unites this collection of essays. Here scholars from Australia, Greece, Great Britain, Spain, Switzerland and the United States reconsider the well-entrenched assumptions associated with the public/private distinction, working with the notions of public and private spheres while testing their currency and exploring their blurred edges. The essays cover and uncover a rich variety of spaces, from the slums and court-rooms of London to the American wilderness, from the Victorian drawing-room and sick-room to out of the ordinary places like Turkish baths and the trenches of the First World War. Where previous studies have tended to focus on a single aspect of women's engagement with space, this edited book reveals a plethora of subtle and tenacious strategies found in a variety of discourses that include fiction, poetry, diaries, letters, essays and journalism. Inside Out goes beyond the early work on artistic explorations of gendered space to explore the breadth of the field and its theoretical implications.
International Perspectives in Feminist Ecocriticism Greta Gaard 2013-06-07 Exploring environmental literature from a feminist perspective, this volume presents a diversity of feminist ecocritical approaches to affirm the continuing contributions, relevance, and necessity of a feminist perspective in environmental literature, culture, and science. Feminist ecocriticism has a substantial history, with roots in second- and third-wave feminist literary criticism, women's environmental writing and social change activisms, and eco-cultural critique, and yet both feminist and ecofeminist literary perspectives have been marginalized. The essays in this collection build on the belief that the repertoire of violence (conceptual and literal) toward nature and women comprising our daily lives must become central to our ecocritical discussions, and that basic literacy in theories about ethics are fundamental to these discussions. The book offers an international collection of scholarship that includes ecocritical theory, literary criticism, and ecocultural analyses, bringing a diversity of perspectives in terms of gender, sexuality, and race. Reconnecting with the histories of feminist and ecofeminist literary criticism, and utilizing new developments in postcolonial ecocriticism, animal studies, queer theory, feminist and gender studies, cross-cultural and international ecocriticism, this timely volume develops a continuing and international feminist ecocritical perspective on literature, language, and culture.
Women, the Environment and Sustainable Development Rosi Braidotti 1994 "There is a widespread perception that the development process is in a state of multiple crisis. While the notion of sustainable development is supposed to address adequately its environmental dimensions, there is still no agreed framework relating women to this new perspective. This book is an attempt to present and disentangle the various positions put forward by major actors and to clarify the political and theoretical issues that are at stake in the debates on women, the environment and sustainable development. Among the current critiques of the western model of development which the authors review are the feminist analysis of Science itself and the power relations inherent in the production of knowledge; Women, Environment and Development (WED); Alternative Development; Environmental Reformism; and Deep Ecology, Social Ecology and Ecofeminism. In traversing this important landscape of ideas, they show how they criticise the dominant developmental model at the various levels of epistemology, theory and policy. The authors also go further and put forward their own ideas as to the basic elements they consider necessary in constructing a paradigmatic shift -- emphasising such values as holism, mutuality, justice, autonomy, self-reliance, sustainability and peace. This unique work is a signally useful contribution to clarifying thinking on a topic with immense implications for all women."--Publisher's description.
A History of Western American Literature Susan Kollin 2015-12-11 The American West is a complex region that has inspired generations of writers and artists. Often portrayed as a quintessential landscape that symbolizes promise and progress for a developing nation, the American West is also a diverse space that has experienced conflicting and competing hopes and expectations. While it is frequently imagined as a place enabling dreams of new beginnings for settler communities, it is likewise home to long-standing indigenous populations as well as many other ethnic and racial groups who have often produced different visions of the land. This History encompasses the intricacy of Western American literature by exploring myriad genres and cultural movements, from ecocriticism, settler colonial studies and transnational theory, to race, ethnic, gender and sexuality studies. Written by a host of leading historians and literary critics, this book offers readers insight into the West as a site that sustains canonical and emerging authors alike, and as a region that exceeds national boundaries in addressing long-standing global concerns and developments.
The Oxford Encyclopedia of American Literature Jay Parini 2004 Alphabetically arranged entries include discussions of individual authors, literary movements, institutions, notable texts, literary developments, themes, ethnic literatures, and "topic" essays.
Contemporary Environmental and Mathematics Education Modelling Using New Geometric Approaches Susan Gerofsky 2018-07-09 This book takes a fresh approach to using educational tools to solve profound problems in societies. The authors bring perspectives from curriculum studies, mathematics education, environmental education, and Indigenous epistemologies to a new consideration of "geometries to think with". These tools reveal the wealth of resources and interrelationships in our world that have the potential to reconfigure and revitalize education. The transdisciplinary nature of the chapters and authors emphasizes the need for thinking beyond boundaries, while respecting the wisdom inherent in intellectual disciplines and traditions.
Women Poets in the Victorian Era Fabienne Moine 2016-03-09 Examining the place of nature in Victorian women's poetry, Fabienne Moine explores the work of canonical and long-neglected women poets to show the myriad connections between women and nature during the period. At the same time, she challenges essentialist discourses that assume innate affinities between women and the natural world. Rather, Moine shows, Victorian women poets mobilised these alliances to defend common interests and express their engagement with social issues. While well-known poets such as Elizabeth Barrett Browning and Christina Rossetti are well-represented in Moine's study, she pays particular attention to lesser known writers such as Mary Howitt or Eliza Cook who were popular during their lifetimes or Edith Nesbit, whose verse has received scant critical attention so far. She also brings to the fore the poetry of many non-professional poets. Looking to their immediate cultural environments for inspiration, these women reconstructed the natural world in poems that raise questions about the validity and the scope of representations of nature, ultimately questioning or undermining social practices that mould and often fossilise cultural identities.
Verdwijnende aarde Julia Phillips 2020-09-03 **** 'Imponerend romandebuut.' de Volkskrant Op een middag in augustus, aan de kust van Kamtsjatka, verdwijnen twee zusjes. In de daaropvolgende maanden lukt het de politie niet de zaak op te lossen. Echo's van de verdwijning weerklinken in een hechte gemeenschap, de angst en het verdriet zijn vooral voelbaar onder de vrouwen. Gedurende een jaar volgen we met verbazingwekkende scherpte de levens van hen die zijn verbonden door de misdaad: een getuige, een buurvrouw, een detective, een moeder. Op de achtergrond de ruige schoonheid van het gebied: dichtbeboste wouden, uitgestrekte toendra's, stomende vulkanen en ijzige zeeën die grenzen aan Japan en Alaska. Een gebied even complex als verleidelijk, waar sociale en etnische spanningen sudderen en waar buitenstaanders vaak als eerste worden beschuldigd. In de pers 'Schrijven kan Phillips: ieder hoofdstuk brengt een ander perspectief op de vermissing, spannend tot het einde.' Trouw 'Een bijzonder briljante roman.' De Morgen 'Verdwijnende aarde is een parelketting van aaneengeregen verhalen.' De Groene Amsterdammer 'Een heel origineel en bijzonder en goed geschreven, indrukwekkend boek.' JAN 'Een dijk van een boek, spannend van de eerste tot de laatste bladzijde.' De Limburger 'Imponerend debuut.' VPRO Gids
Naar de river Olivia Laing 2011-11-25 Naar de rivier is het verhaal van de Ouse, de rivier waar Viginia Woolf in 1941 zichzelf verdronk. Olivia Laing volgde haar pad langs deze rivier, waaruit Woolf voor haar boeken zo veel inspiratie putte. De reis is een reflectie op het veelbewogen leven van een van de markantste schrijfsters van de twintigste eeuw. Maar ook andere bekende auteurs in wier werk rivieren een belangrijke rol spelen, zoals Homerus, Shakespeare en Iris Murdoch, komen erin aan bod. In helder, poëtisch proza en met veel oog voor detail beschrijft Olivia Laing de rol van de rivier in leven en literatuur. Het resultaat is een fascinerende ontdekkingstocht waarin geschiedenis, literatuur en natuur soepel samenvloeien. Olivia Laing is schrijfster en redacteur. Tot 2009 werkte ze voor het literatuurkatern van The Observer. Ze schrijft verder voor diverse kranten en tijdschriften, waaronder The Guardian. Naar de rivier is haar debuut. 'Een magisch boek. Lyrisch, melancholisch en triomfantelijk'- The Sunday Times 'Met Naar de rivier bewijst Laing dat ze tot de groep auteurs behoort die de natuur prachtig kunnen weergeven. Dit is een schitterend boek.' - Robert Macfarlane, auteur van De laatste wildernis

At Home Afloat Nancy Pagh 2001 Considering accounts written by Northwest Coast marine tourists between 1861 and 1990, Nancy Pagh examines the ways that gender influences the roles women play at sea, the spaces they occupy on boats, and the language they use to describe their experiences, their natural surroundings, and their contact with Native peoples. Unique features of this book include its interdisciplinary nature and its combination of scholarly information and a style that general readers will appreciate. The text is engaging but also serves to make fresh and relevant links between scholarship in diverse areas of inquiry; for example, Western Canadian and American history, feminist geography, post-colonial theory, and women and environments.

Ladies and Gentlemen on Display Charlene M. Boyer Lewis 2001 Each summer between 1790 and 1860, hundreds and eventually thousands of southern men and women left the diseases and boredom of their plantation homes and journeyed to the healthful and entertaining Virginia Springs. At the springs, visitors, as well as their slaves, interacted with one another and engaged in behavior quite different from the picture presented by most historians. In this book, Charlene Boyer Lewis argues that the Virginia Springs provided a theater of sorts, where contests for power between men and women, fashionables and evangelicals, blacks and whites, old and young, and even northerners and southerners played out away from the traditional roles of the plantation. In their pursuit of health and pleasure, white southerners created a truly regional community at the springs. At this edge of the South, elite southern society shaped itself, defining what it meant to be a "Southerner" and redefining social roles and relations.
