Sport and the Social Significance of Pleasure Richard Pringle 2015-06-05 This innovative text's critical examination foregrounds the prime reason why so many people participate in or watch sport – pleasure. Although there has been a "turn" to emotions and affect within academia over the last two decades, it has been somewhat remiss that pleasure, as an integral aspect of human life, has not received greater attention from sociologists of sport, exercise and physical education. This book addresses this issue via an unabashed examination of sport and the moving body via a "pleasure lens." It provides new insights about the production of various identities, power relations and social issues, and the dialectical links between the socio-cultural and the body. Taking a wide-sweeping view of pleasure - dignified and debauched, distinguished and mundane – it examines topics as diverse as aging, health, fandom, running, extreme sports, biopolitics, consumerism, feminism, sex and sexuality. In drawing from diverse theoretical approaches and original empirical research, the text reveals the social and political significance of pleasure and provides a more rounded, dynamic and sensual account of sport.

The text is supported by numerous illustrations and examples as well as end-of-chapter summaries and concluding remarks. The Psychology of Behaviour at Work covers all major topics in the field, from vocational choice, personality, attitudes, motivation and stress, to cooperation, learning, training, group dynamics, decision making and leadership. Further sections introduce corporate culture and climate, as well as organisational structure, change and development, and a final section outlines predictions not only for the future study of organizational psychology, but of the future of work itself. An Angler's Reminiscences Charles Hallock 2015-06-13 Excerpt from An Angler's Reminiscences: A Record of Sport, Travel, and Adventure Charles Hallock's literary career, covering a period of sixty years - beginning with the editorship of a college paper, "The Scorpion," at Amherst, in 1852 - has been remarkable for wide range, and thorough mastery of each subject. Although angling has always been his favorite recreation his active participation in other manly outdoor sports is indicated by the title, "Dean of American Sportsmen," conferred by prominent brothers of the guild in recognition of his ability as a practical exponent of healthful pastimes, and as an author - an acknowledged authority - in this branch of literature. Turning to the brief autobiography in this volume - a classic in its special line - the reader will find some of the salient features of a life work great in achievement, varied in scope - from scientific research to current comment on the topics of the day; from sojourning in the Sunny South to pioneer jaunts in the wild West and to far-off Alaska - yet interspersed always with pursuit of the pastimes he loved, with rod and gun. His recreations - like those of "Christopher North" - furnished material for delightful sketches, standard works, scientific essays. His companions were men of action - the hardy voyageurs, at home in primitive craft on wild waters, or on foot along wild trails; ardent anglers seeking adventurous sport on salmon rivers and trout streams far from routes of ordinary tourists; scholars and scientists delving deep in the study of animated nature. That Charles Hallock is and has long been a recognized force, an accepted authority in matters pertaining to fish and fishing, science and travel, is evidenced by the fact that he is an active or honorary member of no less than fifty-seven clubs and associations, many of these being organizations of national and some of international scope. His copyrighted books are seventeen in number, and his various articles in the magazines, sportsmen's journals and daily press would, if collected in library form, fill fifty volumes of absorbing interest. The condensed summary, given elsewhere in this work, records the remarkable fact that outside of newspaper work his occupations and important experiments reached a total of sixty-seven, while his hairbreadth escapes numbered twenty-eight. As an editor, particularly in his favorite field, he possessed the qualifications to acquire the full measure of success. His literary style was here shown in its versatile character, its vigor, and perfect command of the English language. A valuable adjunct was his world-wide acquaintance with men of mark in sportsmanship and the world of letters. Agritourism, Wine Tourism, and Craft Beer Tourism Maria Giulia Pezzi 2020-07-24 This book delves into the development opportunities for peripheral areas explored through the emerging practices of agritourism, wine tourism, and craft beer tourism. It celebrates the entrepreneurial spirit of people living in peri-urban regions. Peripheral areas tend to be far from urban hubs, providing essential services but also typically suffering from marginalisation and remoteness, despite the access to environmental, cultural, and social resources. In this sense, this book investigates the linkages between local agency and tourism in peripheral areas, the role of existing policies, and the evolving bottom-up practices in fostering local development. The basic aim is to disestablish the dichotomies that often emerge when dealing with issues of rural-urban and/or centre-periphery relationships; innovation vs tradition; authenticity vs mise en scène; agency vs inertia; and social, cultural, economic mobility vs immobility; etc. With focused attention on the possible compliance or conflicting strategies of local actors with the existing policies, the book considers how local actors and communities respond to the implications of peripherality in areas often impacted by marginalising processes. Drawing upon case studies from North America and Europe, this book presents this connection as a global phenomenon which will be of interest to community and economic development planners and entrepreneurs.
